Our company is recognized for distributing a robustly constructed range of Water Treatment Chemical Products. We are also renowned for offering Consultancy and Troubleshooting Services to the clients.

# Profile

ION Treat Engineers was established as a partnership firm in the year 2010 and is recognized for distributing a wide assortment of **Water Treatment Chemical Products**. We offer **Bactaslyde, Water Potability Testing System, Cooling RO, ETP Chemical and Water Treatment Chemicals and Water Test Kit**. Other than this, we also specialize in providing **Consultancy and Troubleshooting Services** to our esteemed clients. We have with us a user-friendly testing system on both microbial and chemical parameters that can be easily conducted on any material; it may be solid, semisolid or liquid. These systems are in compliance with the global and national testing methods. We also possess a highly sophisticated marketing infrastructure for industrial and consumer segment along with an extensive network of 150 dealers. Apart from this, working under the able guidance of our general manager, **Mr. AR Gupta**, we have carved an outstanding position in the industry.

Our company possesses a team of highly knowledgeable and seasoned professionals, who work towards achieving the industrial goals and objectives. By conducting a stern recruitment process, we select our team on the basis of their experience, knowledge and qualification of this domain and then posts are assigned accordingly. Moreover, all our team members are well aware of the existing market specifications, thus offer solutions accordingly to the clients. Their dedication and hard work towards the allotted task has helped us execute our business operations in most precise and appropriate manner.

Recognizing and meeting the needs of clients is the prime objective of company. We conduct regular market surveys and research, in order to get an appropriate idea about the client's specifications and then offer products and services to meet them satisfactorily. Moreover, we offer different payment options to the clients, in order to make the monetary transaction easy and hassle free.
